Yea yea yea so you know youre fucked well sorry i cant help you i had a feeling you might have gotten in over your head, i have my own fucking dilemmas as you well know, actually im not so sure you do, try having root iam credentials for some pretty large companies in your pocket, because some minor thing was overlooked and thus came into your posession. The difference between you and me is that i know what i have to lose and i don't think its really sunk in for you yet, but it will and i hope by then you have a better back up plan because im not doing shit for you :/
